

Easter Chick Card

You will need:

Thin white and coloured card, coloured crepe and tissue paper, feathers, split pin, sticky pads, wiggly eyes, glue.

Instructions:

1. Cut out all the elements of the card: chick's head, egg parts, flowers, 2 card strips and grass.
2. Decorate the chick's head using yellow feathers or shredded tissue paper and add wiggly eyes and beak.
3. Colour grass green or use template to cut layers of crepe paper grass.
4. Construct card: Fold A4 coloured card to make portrait card. Stick lower part of egg to card using sticky pads to give it a raised effect. Attach upper part of egg using split pin in left corner (going right through front of card). Hinge open. Stick grass and flowers with glue to bottom edge. Use the two cards strips to make a paper 'spring' (folding at right angles). Attach one end of this to chick's head and the other to the front of card.

Your card is complete!
