

\*I can use FD, BK, RT  
and LT to move an  
object on the screen.

\*I can estimate units, and use the  
correct commands, to move the  
object to another part of the screen,  
whichever way it is heading.

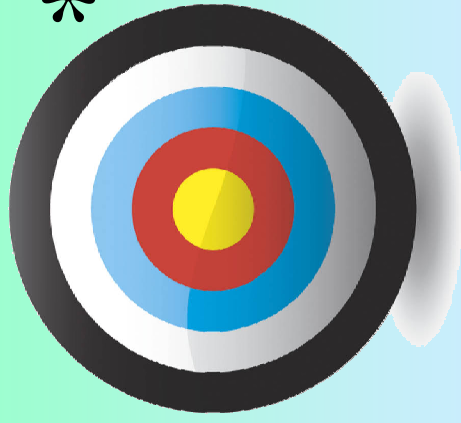

\*I can use Repeat (RPT) to  
make a set of commands  
happen many times.

\*I can copy a command line  
and edit a set of  
commands.

\*I can save a set of commands as  
a procedure and can use my  
procedure to draw patterns.
