

Fill Your Ladder!

Instructions

Shuffle the number cards and place them face down on the table (blanks are included and you do not have to use all the numbers). Give each child a ladder card. Each child, in turn, takes two cards and then spins the spinner. The spinner has the symbols for 'less than' and 'more than'. The children need to put their two numbers on their ladder correctly: the greater the number, the higher it goes. Pupils will have blanks on their ladder which will need to be filled in the same way. This means that sometimes they might have a number they are unable to place (as it will depend where they placed their first two numbers as to which spaces they have left to fill). This gives an added element to the game and numbers which cannot be placed are discarded. The winner is the first person to fill the ladder correctly with numbers that get greater the further up the ladder you go.
