

'I Can...' Science statements: Physical Processes

Level 3

I can explain why a circuit does not work:
e.g. a break in the circuit.

'I Can...' Science statements: Physical Processes

Level 3

I know that if an object is subject to a force
it can be made to change direction, speed or
shape.

'I Can...' Science statements: Physical Processes

Level 3

I know that when a balloon or ball is pushed into water the resistance is an upthrust force.

'I Can...' Science statements: Physical Processes

Level 3

I can explain that sounds travels away from its source and that it gets fainter the further it travels.

'I Can...' Science statements: Physical Processes

Level 3

I know that sounds are heard when they enter the ear.
